AN ANNOTATED READING LIST OF UNITED
STATES MARINE CORPS HISTORY

Compiled by

Jack B. Hilliard

and

Lieutenant Colonel Harold A. Bivins, USMCR

Introduction

The list which follows is intended to represent a cross section of the more generally available books and periodicals related to the history of the United States Marine Corps. To provide the greatest possible value to the largest number of researchers and writers, broad criteria for selection of items to be included have been utilized. Inclusion of any given title does not, therefore, constitute Marine Corps acceptance or endorsement of an author's views, conclusions, or indeed, complete historical accuracy. By the same token, the annotation supplied is in the nature of description of the contents of books and articles rather than a critical evaluation.

The list is organized chronologically by period. For the convenience of the user, an author index is included along with a biography subject listing.

The annotation "notes" indicates that the publication is documented as to research sources; "bibliog" indicates that a bibliography of research materials is appended. The inclusion of illustrations and portraits is indicated by "illus" and "ports."
